Frost & Sullivan Recognizes INFINITT for Accomplishments in Imaging Informatics

INFINITT Healthcare was recently honored with the 2010 Asia Pacific *Frost & Sullivan Customer Value Enhancement Award* for Medical Imaging Solutions.

The Frost & Sullivan Customer Value Enhancement Award is presented each year to a company that proactively implements strategies that provide added value for customers and improves return on their investment. This award recognizes INFINITT Healthcare's commitment to go beyond good customer service, continually refining its products and services to ensure customer retention and ultimately customer base expansion...

INFINITT wins third large contract in Turkey

INFINITT Healthcare recently signed a PACS/RIS contract with Adnan Menderes University Hospital located in Aydin, Turkey. Founded in 1994, Adnan Menderes University Hospital currently operates 240 inpatient beds and is expected to expand to 400 beds in the near future.

This contract is a significant milestone for INFINITT's business expansion in the region since it is the third contract INFINITT has signed in Turkey, following PACS contracts with Erciyes University Hospital (1100 beds) and Dicle University Hospital (1200 beds). It is also meaningful for INFINITT...

INFINITT Contracts with Ministry of Malaysia to provide Xelis

INFINITT South East Asia recently contracted with the Ministry of Health of Malaysia to provide mini-PACS and Xelis software for 5 hospitals. The Ministry of Health of Malaysia was impressed with INFINITT's 3D solution – Xelis – because of its excellent clinical tools and feature sets spanning several clinical specialties. The inclusion of advanced Colon, Cardiac, Lung and Dental viewing and analysis tools on a single software platform will greatly boost user convenience...

Adams County Regional Medical Center – a small but high-tech hospital – putting patients first

Located sixty to seventy miles east of Cincinnati in rural Seaman, Ohio, is Adams County Regional Medical Center (ACRMC), a critical access hospital with 25 staffed beds. Despite its small size, ACRMC offers state-of-the-art technology and specialized diagnostic and treatment services in cardiology, neurology, urology, orthopedics and orthopedic surgery.

With off-site specialists and imaging volumes driven mostly by the ED and outpatient visits, the need for electronic distribution of images and patient data is

INFINITT introduces new Mammo Key Pad

The new INFINITT Mammo PACS Keypad is a simple, user-friendly add-on to the INFINITT Mammo PACS viewer that puts mammography presets right at the user's fingertips. It is a true plug-and-play component: a USB cable is provided and there are no drivers to install. The keypad allows the user to switch from one view to another; apply magnification, panning and zoom; or bring up a report with the single touch of a button. It will apply hanging protocol loop sequences instantaneously. It doesn't eliminate the keyboard completely, but it does reduce...
